

MUHAMMAD ALFATH ADITYA

Jakarta, Indonesia | +62 889-7108-7989 | alfat.pololo@gmail.com | alfathaditya.tech

PROFESSIONAL SUMMARY

Detail-oriented UI/UX Engineer and Designer with extensive experience in creating intuitive digital interfaces. Proven track record in developing wireframes, high-fidelity prototypes, and responsive websites using modern frameworks like React and Next.js. Skilled in bridging the gap between design and technology to enhance user satisfaction and business growth.

WORK EXPERIENCE

Wistkey, Hongkong | UI/UX Designer | May 2025 – Present

- Designed and explored UX/UI flows for ecommerce SaaS platforms and store builder systems
- Created Product Detail Page (PDP) experiences including stock availability systems, accordion-based information architecture, and variant-based inventory interactions
- Designed reusable UI components and Auto Layout-ready design systems in Figma
- Explored UX scenarios and interaction flows for non-technical users to simplify onboarding and editor usability
- Worked on Style Template Library concepts including template browsing, preview, apply, customization, and publishing flows
- Created scalable component variants and responsive UI structures for ecommerce interfaces
- Improved UX consistency across editor and storefront experiences
- Designed modern SaaS dashboard and ecommerce interfaces inspired by clean, minimalist design systems
- Collaborated on feature ideation, UX research, interaction design, and interface exploration for ecommerce tools and AI-related products
- Built user-friendly flows focused on simplicity, readability, and smooth interaction patterns

PT Technosoft Indo Prima, Bogor | UI/UX Designer | Mar 2025 – Mar 2026

- Enhanced user interface and experience for company products, ensuring seamless interaction and increased user satisfaction.
- Collaborated with the digital marketing team to align product design and functionality with marketing strategies.
- Designed visual content and edited product videos for digital campaigns and marketing materials.
- Developed prototypes and wireframes for new features to meet user needs and business objectives.
- Conducted usability testing to identify areas for improvement and optimize products for better engagement.

PT Kawan Kita Solusindo, Malang | Freelance UI/UX Designer | Jan 2024 – Feb 2026

- Designed intuitive and user-friendly interfaces for various websites and applications.
- Created comprehensive wireframes, prototypes, and visually appealing layouts to enhance UX.
- Developed responsive and dynamic websites using HTML, CSS, JavaScript, React, and Next.js.
- Optimized websites for performance, accessibility, and SEO.

Clicknext. Co., Ltd, Jakarta | Intern UI/UX Designer | July 2024 – Oct 2024

- Created professional company profile designs.
- Developed website mockups in Figma and successfully converted them to the MakeWebEasy web builder.
- Designed engaging banners for the company blog.

PT Mayar Kernel Supernova, Bandung | Intern UI/UX Designer | Oct 2023 – Nov 2023

- Gathered research data and converted insights into actionable product interface designs.
- Created user flows and user journeys to build solid wireframes.
- Applied Design Thinking methodology to solve product problems with comprehensive concepts.

PT Jendela Prima Indonesia, Bekasi | Graphic Designer | April 2021 – April 2022

- Redesigned the MILI Mobile Apps using Figma to improve visual appeal and usability.
- Created daily social media content for WhatsApp, Instagram, and Facebook.
- Redesigned and managed the company website using WordPress.
